

# Second Slice Cafe

A website for a sustainability driven cafe

---

Duration: 4 Months  
My Role (Individual): UI Design | Web Developer

## Summary:

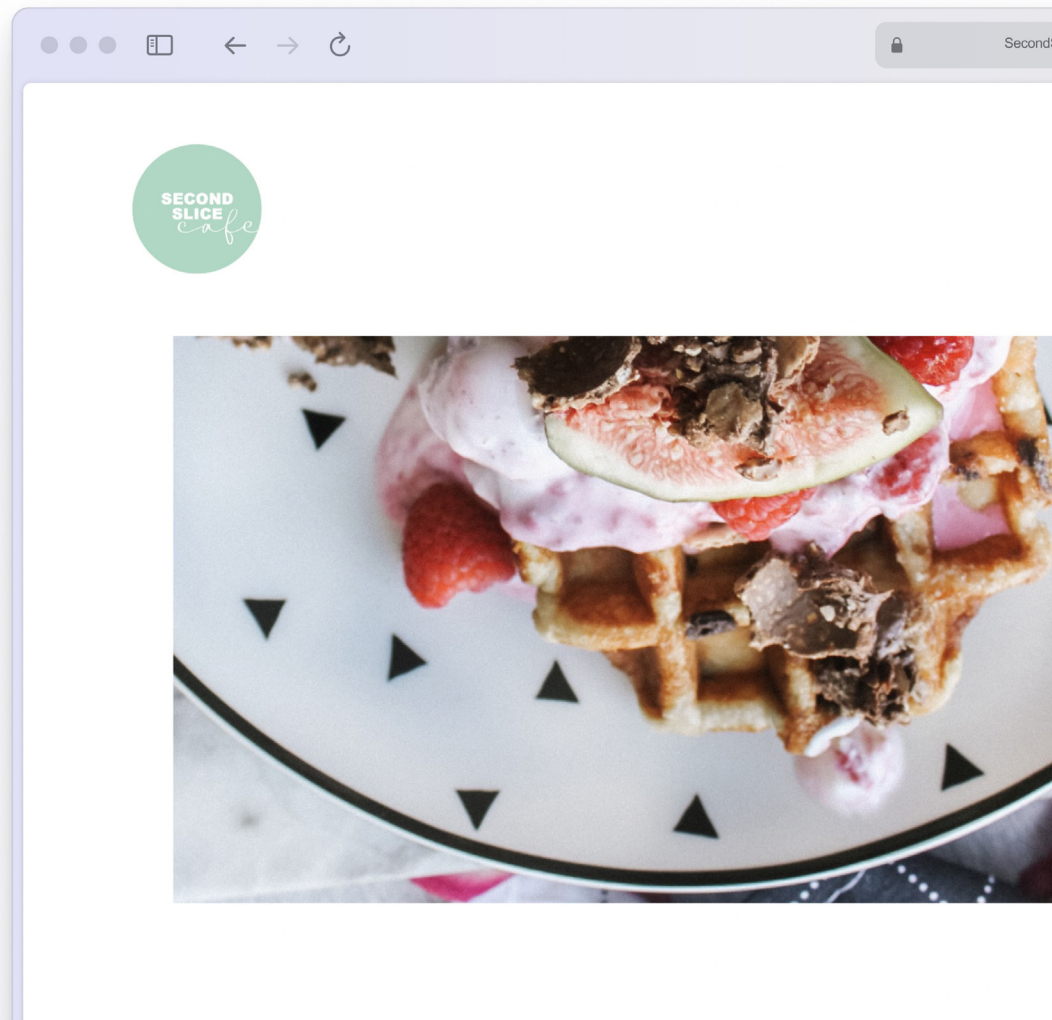

Second Slice Cafe is a small cafe in Perth. They pride themselves by being as sustainable as possible. They also focus on supporting local businesses by buying produce from the community.

## Problem:

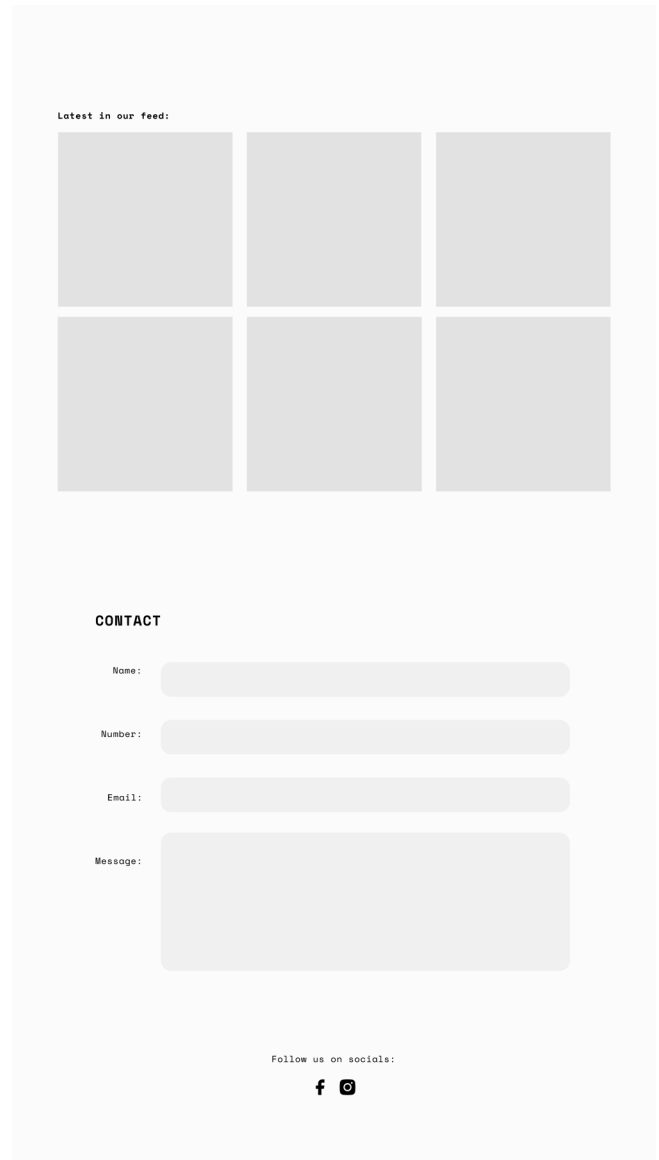

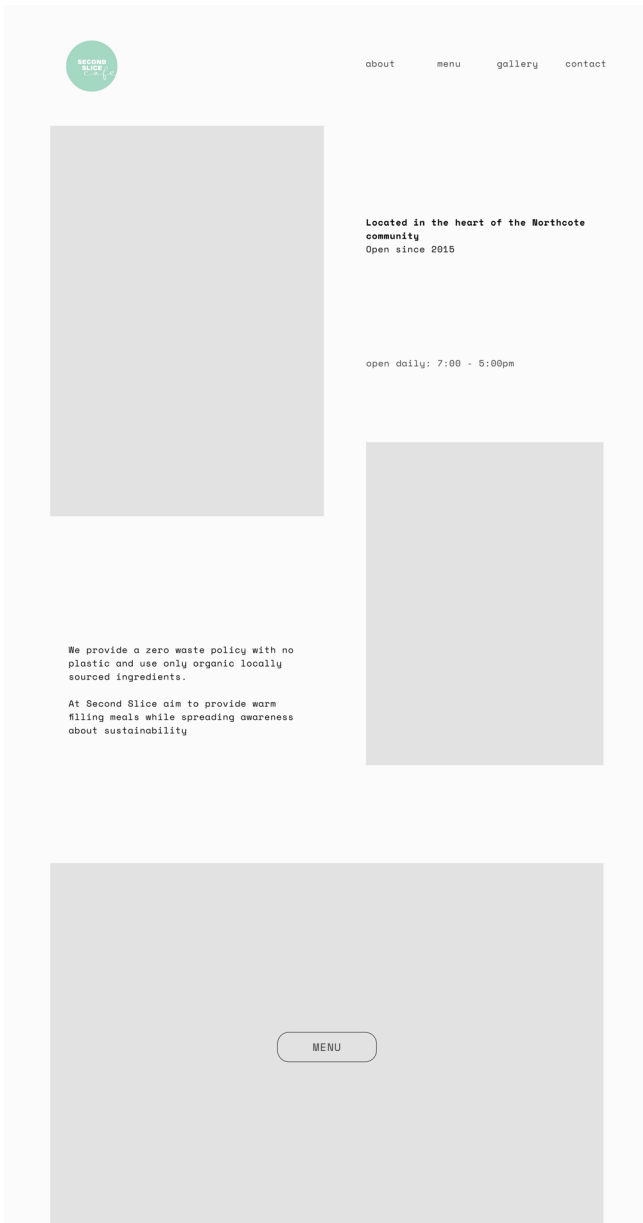

Making a website for the cafe

## Methods:

- Wireframes
- Mockups
- HTML
- CSS

# Wireframes

# Mockup

about menu gallery contact

Located in the heart of the Northcote community  
Open since 2015

open daily: 7:00 - 5:00pm

We provide a zero waste policy with no plastic and use only organic locally sourced ingredients.

At Second Slice aim to provide warm filling meals while spreading awareness about sustainability

# Solution

# Reflection

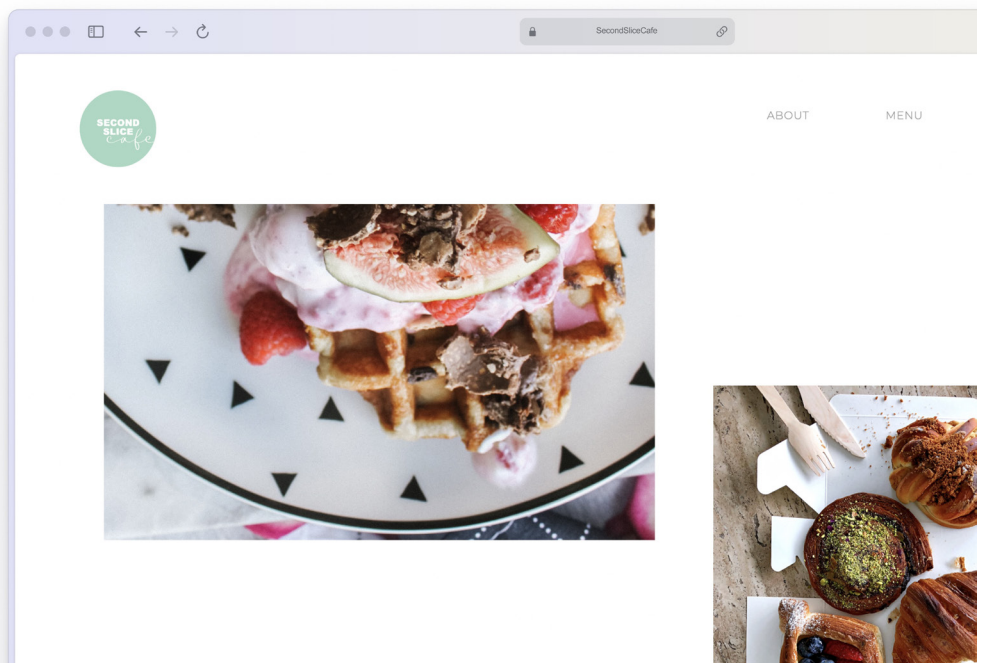

With Second Slice Cafe I am overall satisfied with the development of the final website especially as I coded it.

I would like to go back to this project and add more functions such as a more dynamic feel with extra added animations as it feels static.

# Prototype:

[bit.ly/SecondSliceCafe](https://bit.ly/SecondSliceCafe)
